This Project Was Stoped A Few Months BUY NOW! WHY DO YOU STILL HAVE MONEY IN YOUR WALLET?! BUY THIS NOW!!. Bannerlord when. Many times when I'm reading reviews or watching videos of new games I ask myself the question; "Would I play this if it was a free flash game?".

Many times the answer is "maybe for a few minutes".

This shouldn't be.

There are plenty of greenlit games that if FREE I wouldn't spend the time on them.

THIS GAME is not one of them.

When I first played this game (the first one) on kongragate I loved it. Rogue like elements, lootfest, and a simplistic yet rewarding strategy to the game. When the second one appeared, I was extactic, even more so when the creator mentioned attempting to greenlight the game, with more content on steam.

Even if the game didn't have the added content I would have still payed the cheep price for it.

For a simple, yet satisfying "lunch-time roguelike" I couldn't recoment it more.. I liked Platypus 1 so much. Let's try part II.

OMG, I think my left ear is totaly deaf!

Whew, thanks god I'm wrong... It's just a bug in a game and noone cares.. AWESOME GAME LOVE LOVE LOVE IT EVERYONE NEEDS TO THUMBS THIS UP

IDK WHY THERE WASNT A GAME LIKE IT ALREADY ON STEAM

YES I KNOW ITS A COPY OF BOMBERMAN BUT I MEANT YOU KNOW LOL. For a \$5 game this is interesting. I know that I havent unlocked every ending but there are a good number of ways for things to end. The story can end very early or can go on. I found myself getting more and more intrigued. Definitely play through several times, you'll need to to get the full picture. The world could use just a bit more fleshing out but I tihnk this is pretty good. I'm going to keep digging for more ending because I know there are other ways for this to end. Well worth the \$5.

this is so much better than heat 2 was.i really enjoy racing now with my tspec wheel and fanatec pedals.. good game! :). Well i love the game you have made , i'm going to be very sad when i finish it , if you like puzzles you will love it , the only thing that bugs me , is i have to end the game from task manager , and theres no screen where it shows how many levels i got left , i have played loads of these type of puzzle games , and this one is well done , apart from the ending game from task manager , it is perfect well done .. I don't use any of these I can't imagine how they would be worth the asking price. Rebellion need to make more games and less DLC.

Where's Zombie Army 2019?. this is by far very far the best game i have played on vr. it is almost to scary to play and i dont get scarred by games. i really liked this game plus it took me forever to finish it.. wtf feck is this shet minus rubt. Three weeks ago, I released a preview on a game called Pizza Express. I actually spent a lot of time playing the demo that Onni Interactive very kindly gave to me and I was really enjoying it, so when it was finally released on Steam, I was beyond excited to get my hands on a full copy and attempt to take my pizza palace all the way to the top.

The aim of the game is simple. You're hired by an anthropomorphic cat named Gastone who recently inherited his father's old restaurant after it shut down, and his sole desire is to reach the top of the food authority – hilariously named F.L.A.B – best restaurant rankings. Immediately you're placed where all the action is, and this is where the majority of the actual playing of the game takes place – the kitchen. Your main task in the game is to provide the public with the pizzas they request in a timely fashion, which sounds easier than it actually is. You have to keep on top of everything more than just the order list, with restocking your toppings being a frequent challenge, as well as managing things like the menu, the amount of tables in the restaurant and even the décor around it. Being able to manage everything to make sure it's all ticking over correctly and in the most profitable manner can be really fun to tinker about with in order to get the right balance.
